

# United Efforts of England, France and Russia Fail to Induce Spain to Enter

## NOTHING TO FIGHT FOR, THE VERDICT OF MADRID.

Neutrality in this Instance Inspired by Sympathy for Germany.

In Addition the Dons are Somewhat Afraid Civil War Might Enue if They Aligned with the Entente Powers—Upper Classes Against Trouble—Country is Prosperous and Would Remain So.

BY WILL IRWIN.

(SPECIAL FOREIGN CORRESPONDENCE.)

MADRID, July 2.—Every chancellery among the warring European powers is spending all its spare time just now in trying to drag the neutral nations of Europe into one side or the other of Armageddon. They have done a good deal of work on Spain—especially the Germans. At present the work seems to have been vain on both sides. In these tangled and terrible days it is probably unsafe to prophesy anything, but the safest prophecy just now is that Spain will keep out of the mess. The forces favoring the Allies and those favoring the Germans are so well balanced that neither could make a decisive movement without tearing the country to pieces. I make these statements, not on my own poor authority—I have spent only a week in Spain—but on the authority of American, British and German residents who have lived here long enough to know the politics of the great Iberian kingdom as well as they know their native politics.

To put it in a nutshell a majority of the Spanish people would vote taken on the subject, would favor the western Allies. The preponderance of pro-French and pro-British feeling is variously estimated by various observers. One Spanish of revolutionary tendencies has declared to me that not more than 10 per cent of the Spanish people favor Germany. Another of a conservative and clerical bent, while admitting the majority in favor of France, declared that the vote would be very close. Perhaps the best qualified witness is a neutral diplomat who has recently visited all the important cities of Spain. His guess is 55 pro-German to 45 pro-Allies. However, the minority, whether it be 10 per cent, strong or 45 per cent, or 45 per cent, has this in its favor—it comprises some of the strongest elements in the kingdom.

### THE LINE-UP.

The line-up is almost the same in all the neutral countries of Europe; where local interests do not affect the problem the conservative element is everywhere pro-German; the liberal and revolutionary element anti-German. Such is the state of affairs in Holland; such was the state in Italy before the liberals forced Italy into the war. The conservative policy, with such of the middle class as follow them, believe in the German principle because Germany, they say, has shown how autonomy can be made successful in modern conditions. The liberal and revolutionary element, on the other hand, deplores parliamentarism, "noisy democracy" and education of the "lower orders." For a generation such theories have been rather discredited in Western Europe. Those who hold them have been shy of proclaiming them publicly. This war, with the early success of Germany, has proved that a military autocracy can be very efficient, has given new courage to the extreme conservatives, and has educated the lower orders, even beyond all other European countries; but those were merely concessions of the diplomacy. The spirit of Germany during these years of commercial expansion before the war, was comparatively autocratic; since the war it has been absolutely autocratic—the new golden age for which they long. So spoke the old nobles of Italy before last June, and so speaks the old nobles of Spain nowadays. And the Spanish nobility has probably more real power than the corresponding class in any other western nation.

The priesthood, again, is almost unanimous on the side of Germany, and that for reasons more tangible than a conservative bias. Since the abolition of the concordat Catholic Spain has generally regarded France as the enemy of the church, the most of the disestablished monasteries removed their monasteries to Spain, there to spread among their fellow clerics a dislike for the French government. Moreover, Austria is the one first-class power of Europe which is still Catholic in its state religion. The priesthood, and the German, and the Austrian, and the Russian, and the Greek, and the Chinese, and the Japanese, they consider apostates. In Spain, as elsewhere, women are the strongest adherents of religion, and everywhere in Spain one encounters the phenomenon of wives who are pro-German because France is the "enemy of the church," while their husbands are outspoken for France and England.

Add to this the army—by which I mean not the conscript rank and file, but the officers and the men in high control. Just why they are pro-German no one has explained to me exactly, but they are. Perhaps it is because soldiers are always conservative; perhaps, also, it is admiration of the German military machine, upon which, as a model, they have built the Spanish army. There are exceptions; several high Spanish officers have resigned their commissions in order to offer their swords to France; but the rule holds.

The very court is divided. The Queen-mother was an Austrian princess. She has gathered about her a pro-German party. That high-spirited and popular young King who rules Spain would probably be heart and soul for the Allies even without the influence of his British Queen. He serves only to make him the more convinced. Alfonso is decidedly liberal in his views. He is also not without ability. The very revolutionary Republicans admit that only as one of them expressed it, "he is surrounded by men who do not know how to think." It is his wife, speaking some years ago to an eminent American concerning the attempts to assassinate him, said: "There are two things they won't do to me; one is to make me quit, and the other is to drive me into reaction." Being liberal, and being naturally on the side which the Allies have taken all over Europe.

This conflict of opinion between the King and his mother has produced a singular state of social affairs in the court. So far as general conversation goes, there might be no war in Europe; mention of the matter is absolutely taboo. Madrid gossip has it that the wife of a German diplomat came out at a state dinner with some vinegary remark concerning France. According to the story, a silence fell on the table, which was broken by the Queen Mother, who had been training her youngest son upon the offending lady. "Who dares mention that subject in this place?" said the Queen Mother. Since which, conversation at court has been much restricted for it is almost impossible to talk of anything in Europe just now without bringing in some aspect of the war.

One more element must be added to those favoring Germany—the Carlists, those who support the claim of Don Jaime as rightful heir to the Spanish throne. Since the men of his party make a question of monarchical succession the chief article in their political creed, they are naturally ultra-conservative and they follow the rule I have set down for Europe by favoring Germany. Don Jaime's chief adherents have openly avowed sympathy with the Kaiser.

On the other side is the growing and active Liberal party, varying from Socialists and revolutionary republicans to liberal supporters of constitutional monarchy. They, like the clergy, take sides because of France—but they do so because they admire the French ideal of democracy and hope for a republic modeled upon that of France. There is, too, the call of the blood. France counts with them as a Latin nation, and the other great Latin nation—Italy—has broken an old alliance to take sides with France and England. The solidarity of the Latin nations draws them toward France and Italy. This feeling is especially strong along the northeastern border, where the people have contact with France, and where there is more than a little French blood.

The industrial element is mostly liberal, and therefore mostly pro-Allies. This applies not only to the millions of factory operatives who are building up a new industry and brewing revolution all over Spain, but generally to the employing element as well. Barcelona is the largest city of Spain and also its most important manufacturing center. It is there that Ferrer worked and died before the firing squad; it is there, if anywhere, that revolution must start. Now, Barcelona is as wholeheartedly on the side of the allies as were Milan, say, or Venice, before Italy entered the war. On the other hand, ecclesiastical Toledo and Madrid, seat of the court, and most of the churchly control and of army government, would probably vote for Germany rather than France.

MANY INTRIGUES. Under this surface of things runs a hundred little intrigues of the warring nations. Both German and British capital are strongly represented in Spain, and the men who control this capital have been using their power in various ways to the advantage of their own side. The British, who have been working quietly and under the surface, and the Germans with considerable noise. As in the United States before the war, the German press has been "bought up" by the Germans. Even the prices are quoted in the paper. To an American these prices seemed modest enough. The editorial heads of one influential newspaper, it is said, receive a bribe of 1000 pesetas, or \$1000 a month. This would be a pittance for bribe in America, but it is high in Spain, where an ordinary reporter gets \$12 a month and the editor of a newspaper gets only \$150 a month. However, this is not the only valuable consideration. German control may be of the banks and the money market, and the German banks discount the bills of the pro-German newspapers, and see that they get all the German advertising wherever these newspapers prosper as never before. On the other hand, the Correspondencia de Espana, which is the most influential newspaper in Spain, has been a staunch friend to France, and is plainly starving for advertisements; one has but to look it over to realize that. The other side of the coin is the like the way of an American corporation with American newspapers, and it proves that the game is the same the world around.

A newspaper expert need only read over the three pro-German newspapers of Madrid to discover that their war matter is furnished from a source higher up; it resembles strongly in general cast and spirit the items provided by the liquor dealers to purveyors of the press. The German press, for example, one item printed this week. It got forth, on the authority of the Pioneer Press of San Pablo, in the state of "Minnesota," that some body or other, an official in the University of Iowa, had traveled repeatedly on the Lusitania and found that she was armed with cannon. There followed a paragraph of comment which bore all the hallmarks of German composition. In its editorial, its news and especially its cartoons, the part of the Spanish press out-Germans Germany. Some of the items are undeniably clever. One introduces the shades of two French soldiers. "How did you die?" asks the first one. "I died in an honorable and civilized manner," replies the second. "Oh, I died in an honorable and civilized manner," replies the third. My initials were blown out by a cannon.

SPANISH POLITICS. The war as reflected in Spanish politics introduces complications hard for a stranger to understand, and not to be described without the aid of an American who has spent only a week in the country and sets his information second hand. A conservative party is nominally in power. The conservative party is also nominally neutral, which means in present effect pro-German. They have done what Germany has been urging the United States to do in violation of the

How the bodies are being taken from the Chicago River.

In spite of the fact that several hundred bodies of Eastland passengers are supposed to be either in the hull of the ship or in the Chicago River the divers at work yesterday, according to a Chicago dispatch, succeeded in bringing up very few corpses.

letter of international law—they have prohibited the exportation of supplies to the belligerents. However, if report be true, this law has been more honored in the breach than in the observance. There is one conspicuous exception. Germany needs copper and Spain produces it. Before the flat of May last it was possible to smuggle copper into Germany via Italy. But the copper industry of Spain is controlled by the British, and Germany got none of it.

There have been plots and counterplots concerning supplies; as witnesses the matter of the American rifles. We have been hearing about those American rifles over here for the last six months. As the story goes, the American army, upon adopting the new Springfield rifle, ordered 100,000 Erasmussen rifles. These rifles were stacked in the armories awaiting condemnation and private sale when the war began. They are said to be perfectly good arms and the Russians want them badly. The government, however, could not release them for obvious reasons. A bill of exchange was issued to a belligerent without violating neutrality, but all kinds of devices have been tried to get around this responsibility of munitioning. The transfer they were to be smuggled over to the United States, and then to be sent to the Russians. The government, however, could not release them for obvious reasons. REDUCING FEDERAL DEPOSITS.  
 McAdoo to Withdraw Nearly Four  
 Millions and Keep Only Enough  
 to Conduct Government Business.  
 (BY A. P. NIGHT WIRE.)  
 WASHINGTON, July 27.—Secretary  
 McAdoo directed today the with-  
 drawal of \$3,970,500 from govern-  
 ment deposits at national banks, the  
 money to be remitted to the treasury  
 between August 10 and 25. A simi-  
 lar withdrawal of \$5,000,000 was  
 made some months ago in line with  
 the department's policy of reducing  
 these deposits to the amount neces-  
 sary for transaction of the govern-  
 ment's business.

# SUIT SALE

F. B. Sherwood.

The position of the blockade is being conducted with international help, as a precedent the United States government has taken.

Mrs. Bertha Deland, former Cleveland woman, in her petition asking for \$109,824 damages, alleging fraudulent bond sales and assault and battery.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]  
 CLEVELAND, July 27.—(Fruitful representations in the sale of mortgage bonds, assault and battery, and false imprisonment were the charges made against Frank Rockefeller, brother of the Standard Oil head, in three suits filed today by Mrs. Bertha M. Deland, a former Cleveland restaurant cashier, now a Montreal widow.

The mob, excited to a great degree, then turned to the French Legation and threatened to burn the building to compass the execution of President Guillaume. Guillaume took refuge under the flag of France at 10 o'clock this morning, after he had been compelled to flee before the

San Francisco. Among the speakers were J. M. Hunter of Los Angeles, president of the California Building-Loan League; Charles E. Clark of Covington, Ky., president of the United States League of Local Building and Loan Associations. The annual reports of the secretary and treasurer were read by H. F. Collins of Cincinnati, the President, in the absence of Joseph K. Gamble of Philadelphia, treasurer. Tomorrow and Thursday papers are saving to do with the work of the association will be read.

and instead of being sent to Germany she remained some time at sea before being taken to New York City. The shipper has received no word from her since she was taken to New York City. The British reply has been considered. That American note to the United States will be one of many which have been received without having received any other vigorous attention at the State Department.

The controversy between the two governments had a more pressing matter than many's submarine warfare involves human life rather than loss of freight.

News dispatches from Germany said that the German Foreign Office in the

she asks \$109,821 from Rockefeller. Mrs. Leland alleges that by reason of a relation of trust and confidence between herself and Rockefeller he induced her in 1907 to invest \$10,000 security, then to the Board of Directors of the crew removed the dangerous aspects which might otherwise have brought another climax in the relations between the two governments.

There was an absence of tension for the case was regarded by both as a diplomatic controversy which would require further legal action such as was made in the case of William P. Fryer. Liability will be admitted again by Germany, it was thought. The fact that Germany is disputing the meaning of the treaty of 1913 in the case has led to the belief that similar position would be taken by the German Foreign Office in the

rebel attack.

Gen. Oscar ordered the execution of the politics prisoners in his power as soon as he perceived that the revolutionary outbreak of this morning was a serious menace.

After the battle Dr. Rosalvo Bobo and his rebel soldiers ruled the city. The attack on the palace began at daylight and rifle firing did not cease until 10-10. Guillaume and his few defenders fighting until the palace was ablaze. The casualties were heavy, and among the dead is the chief of police.

There has been a reign of terror in Port au Prince for ten days. July 17 President Guillaume, doubtless realising that his fall was at a question of a few days started on a series of persecutions. He began by causing the arrest of all Haitians of wealth or position and expelling all foreigners who occurred at Rockefeller's suggestion.

Further defections today in the ranks of the union marked the machinist strike, instituted a week ago at the Remington Union Metallic Cartridge plants, which are working on millions of dollars worth of war orders for the allies.

George Bowen, business agent of the machinists, admitted tonight that two machinists and a number of helpers returned to work at the Coulter and Mackenzie plant doing subcontract work for the Remington concern. The manufacturers claim many more than that number returned to work.

J. T. Keppeler, international vice-president of the machinists, is expected back from New York soon with completed plans for a settlement with the arms plants which has refused to take back some of the strikers.

**WHY WANAMAKER RESIGNED.**  
Wants to Relieve the Security League of Responsibility for His Plan to Purchase Belgium.  
[BY A. P. NIGHT WIRE.]  
PHILADELPHIA, July 27.—John Wanamaker today resigned as chairman of the Executive Committee of the Philadelphia chapter of the National Security League to which post he was elected at the organization of the chapter last week. He said his action was induced by a desire to re-

liever's ranch at Lividville, Kan. Rockefeller, at his home in Wlcek, tonight, characterized the suits against him as "villainous proceeding."  
"There is nothing in the charge, nothing whatever," he said. "I shall fight the case to a finish."

**HAITIEN WOMEN HAVE BEEN ARRESTED**  
in the streets and taken away to prison. July 17 a French actress, Madame Tally, was treated in this arbitrary manner. The prisons of the city are full and the conditions in them are deplorable. Prisoners die daily as a result of hunger and as unsanitary conditions in which they are compelled to live. The foreign legations hold many refugees.

**EIGHT MINERS KILLED.**  
[BY A. P. DAY WIRE.]  
CHRISTOPHER (Ill.) July 27.—Eight men were killed and fifteen badly burned in a gas explosion at one of the entrances of the Modern mine here today. Three men are missing. All but those at the burning entrance escaped.

**THE PRICE OF SUCCESS**  
Many people pay a terrible price for success, sacrificing for it health and happiness. Neurasthenia, a typically American disease, is due to worry over the struggle for success more than to any other one thing.  
Neurasthenia is a condition of nervous exhaustion in which the system fails to recuperate after unusual demands upon its nervous energy. Its symptoms are over-sensitiveness, irritability, a dispo-

**Beautifully Dark Shade, No Dye.**  
You can easily turn your gray, faded or streaked with gray hair beautifully dark and lustrous almost overnight. If you'll apply a few times, Q-Ban Hair Color Restorer to hair and scalp like a shampoo. Q-Ban is harmless, not sticky, delightful to use and darkens all your gray hair so naturally and evenly that no one can tell it has been applied. Q-Ban acts on the roots, makes hair and scalp healthy, changes gray hair and entire head of hair to that soft, even dark luster, freshness, beauty and abundance which makes the hair so fascinating and attractive, besides prevents dandruff.

NASHVILLE (Tenn.) July 27.—  
Chancellor Allison today appointed  
Robert Vaughn, a master in chancery,  
receiver for the city of Nashville,  
and Circuit Judge Matthews, acting  
under Tennessee's "ouster law," sus-  
pended from office Mayor Hilary E.  
Hovew, and Commissioners Robert El-  
liott and Lyle Andrews. Andrew,  
Comptroller Miles Burns, Treasurer  
Charles Meyers and Assistant Treas-  
urer W. H. West are under indict-  
ment in connection with the disap-  
pearance of records. West's where-  
abouts are unknown.

It is said the city's credit is not  
involved, the movement being di-  
rected against officials for alleged  
misconduct.

### INDIGNATION OVER NOTE.

PROF. HEILFRON AMAZED BY WILSON'S ARGUMENT.

Finds Fault with the General Attitude of the American Government as a Neutral—Delivery of Ammunition to the Allies Criticized—Lamentable a Hostile Vessel.

(BY WIRELESS AND A. P.)  
BERLIN, July 27 (by wireless to Sayville).—Prof. Eduard Heilfron, an authority on international law, commenting in an article in Der Tag on the American note to Germany regarding the Lusitania disaster and submarine warfare, says:

"The American note must produce indignation and great irritation. President Wilson's contention that American citizens may travel where their interests upon the high seas call them is absolutely untenable."

"International law unconditionally acknowledges that neutrals do not possess absolute freedom of travel on the high seas in war time. The Lusitania case concerns not a neutral ship, but a hostile ship of which there were strong suspicions of her being turned into an auxiliary cruiser at any moment."

"The insinuation of the United States that Germany should give up her submarine warfare so that American citizens could travel on British ships is comprehensible only because it is in accordance with the entire attitude of the American government toward Germany."

"The delivery of arms and ammunition does not always violate neutrality, but if the fighting power of one belligerent exclusively depends upon the delivery of arms and ammunition by a neutral power, then it constitutes a violation."

"President Wilson speaks of a new and unexpected method of naval warfare and the May note acknowledged the impossibility of submarines detaining hostile ships. A necessary consequence in the destruction of such vessels. Instead, President Wilson demands that Germany abandon the use of her most useful weapon to allow fish ships instead of being satisfied with taking passage on American, Dutch, Swedish, Norwegian or Danish ships."

#### ITALY'S CONTRABAND LIST.

Royal Decree Governing Rome's Attitude Toward Neutral Shipping Also Received at State Department.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 27.—The Italian contraband list and royal decree governing Italy's attitude toward neutral shipping reached the State Department today. The list of contraband goods is in conformity with that of the British government. Modifications of the rules outlined in the Declaration of London are followed in those made by Great Britain and include the provision that goods shipped to neutral countries must be consigned to an individual and not merely to an organization.

The decree, issued by the Duke of Savoy, the King's lieutenant in the absence of the ruler at the front, authorizes blockades of neutral coasts if it is established that the enemy is supplying its armed forces from such territory.

### ISONZO BATTLE MIGHTIEST OF ALL.

(BY ATLANTIC CABLE AND A. P.)  
BERLIN, July 27 (via London, 2:35 p.m.).—The battle between Italians and Austrians along the Isonzo River is described by the Tyrol correspondent of the Lokal Anzeiger as the "mightiest and most frightful of the world war."

The great struggle has lasted a week. The correspondent says, without any decision. The principal Italian onslaught has been directed against the Dobardo Plateau, where the artillery fire exceeds in intensity that of the battles of Tarnow and Gorlice, in Galicia. The correspondent adds:

"The conflict, directed from captive balloons, lasted three days without any interruption, and after only a few hours' pause was resumed. The Austrian army endures the terrible fire bravely."

"Italian aviators are continually seeking to destroy the railways at the rear of the Austrian lines, especially around Nabresina, but thus far they have done no great damage."

#### VIENNA.

### FIERCE BATTLE AROUND SOKAL.

AUSTRIANS TAKE OVER THREE THOUSAND PRISONERS.

On the Italian Front Hand-to-hand fighting rages in terrible losses to the enemy who retire with no advantage in their positions.

(BY ATLANTIC CABLE AND A. P.)  
VIENNA (via London) July 27.—The War Office today issued the following communication:

"Russian war theater: After the storming of Sokal (Galicia) by our troops, fighting continued for the possession of the height southeast of town, which is especially important for the maintenance of the Bug River crossings. Yesterday our brave troops stormed this position and captured twenty officers and 3000 men and five machine guns."

"The fighting north of Grubichow (North of Sokal in Poland) is successfully progressing. Otherwise the situation in the northeast is unchanged."

"Italian war theater: Under cover of a massed artillery fire, which began early yesterday, the Italians again attacked the plateau of Dobardo with large forces. The attack failed, however, because the Austrians, after fierce hand-to-hand fighting, our troops again remained in possession of their old positions on the border of the plateau."

"On the other parts of the front of the coastal district and in the Carinthian frontier district nothing of importance has occurred."

#### CHRONIC CONSTIPATION.

"About two years ago when I began using Chamberlain's Tablets I had been suffering for some time with stomach trouble and chronic constipation. My condition improved rapidly through the use of these tablets. Since taking them my health has been fine," writes Mrs. John Newton Irving, N. Y.—Advertisement.

CHAMBERLAIN'S is the name at Hotel Lankenshaw. You can get it in London and the city. Only 40c. You'll like the service rendered.

### HALT GERMANS ON THE NAREW.

Counter-attacks Stop the Advance of Invaders.

Enemy is also Repulsed on Left Bank of Vistula.

Stubborn Fighting Reported on the Bug River.

(BY ATLANTIC CABLE AND A. P.)  
PETROGRAD, July 27 (via London, July 28).—The following official communication was issued this evening:

"On the Dnieper and the Niemen the situation remains unchanged. There have been cavalry outpost actions there. Southwest of Kovno Monday the enemy was repulsed beyond the Vesiya River. On the Narew Sunday and Monday from Dobrolenka to the Novogorodsk region the fighting increased in energy. On the left bank of the Narew the enemy was held back by energetic attacks."

In the fighting which occurred in the forest east of Roman, Monday evening the enemy brought up enormous reserves above Serock. On both banks of the Narew there have been several Russian attacks, some detachments being compelled to beat a hasty retreat to the region of the village of Serock. We captured one Zepplin, 100 prisoners and several Maxim guns. An enemy counter-attack from Constantinow was repulsed by armored motor cars."

#### AROUND THE VISTULA.

"On the left bank of the Vistula at daybreak Monday there was a successful bayonet charge, the enemy's attempt to approach the front of Nadarsyn-Plaszczyno (southeast of Bionie) being repulsed. On the Vistula and the Wiepra tranquility prevailed."

"East of the Wiepra, to the River Bug the fighting continues. In this region Monday evening large enemy forces captured a portion of the Russian trenches, but were expelled from them in a subsequent counter-attack."

"Particularly vigorous attacks in the neighborhood of Geoble were repulsed."

"On the Bug stubborn fighting is taking place in the region of Sokal and Potourzhil, where a portion of the enemy's forces crossed the river. On the Dnieper and the Pruth the enemy has delivered ineffectual attacks."

"In the Black Sea Russian torpedo boats have bombarded Samos and Rise, slaying 110 sailors."

#### NORWEGIAN SHIP IS SET ON FIRE.

(BY ATLANTIC CABLE AND A. P.)  
AMSTERDAM, July 27 (via London).—The Norwegian bark Harboe was attacked and set on fire Sunday by a German submarine. The crew, which has landed here, was given five minutes to get into the boat. The captain says he saw three other boats on fire near the spot where the Harboe was attacked.

### May Save Warsaw.

(Continued from First Page.)

ried in meeting the Russian counter-attacks. These counter-attacks, according to Petrograd, have succeeded in forcing the Germans, who had crossed the river, to return to the northern bank at several points, but Berlin asserts they completely failed and that the German force is advancing in an easterly direction. The Russians who were defeated in the Baltic provinces recently also have turned, and, according to the Berlin official report, have delivered an attack from Mitau which, however, was repulsed.

Further to the south the Germans continue their advance eastward toward the Vilna-Petrograd Railway, but there is a of territory to cover before this is reached, and it is considered more likely that Gen. Von Buelow, who is in command here, will turn to the southwest to threaten the Russian armies which are facing Von Hindenburg.

Everywhere the battles are at their height, especially that in which Von Mackensen is engaged. All the military critics here believe that this is the most critical engagement of the war, for the whole German plan depends on his reaching the Lublin-Chelm Railway.

With interest largely centered on the east the important offensive of the French in Alsace has been almost disregarded. They report tonight another attack from the north, which apparently is their objective, and the repulse of a series of German counter-attacks. The French have concentrated a lot of artillery in the region and with high explosives have been simply tearing up the German defensive works, which are among the strongest along the whole line.

Artillery, likewise, is playing an important part in the battle on the Meuse, where the Italians are reported to have concentrated for three days their fire on the Austrian positions.

This fire is said to have exceeded in violence that which the Austro-Germans employed against the Russians in West Galicia, which up to that time was the most terrible ever experienced in war.

#### PARIS.

### DRIVE GERMANS FROM HEIGHTS.

FRENCH OCCUPY POSITION DOMINATING FRECHY VALLEY.

Violent Cannonading Continues in the Argonne, in the Sector of Soissons and Around Arras, the Latest Place Being Set on Fire by the Shells.

(BY ATLANTIC CABLE AND A. P.)  
PARIS, July 27.—The following official communication was issued by the War Office tonight:

"In Arras, in the sector of Soissons, the cannonading has become more intense. A fire which started was quickly extinguished. One civilian was killed."

"From the Somme to the Aisne there has been continuous activity on the part of the artillery on both sides."

"In the Argonne a violent cannonade has occurred along the whole front."

"In Alsace our troops yesterday achieved the conquest of a very strongly organized position which the Germans occupied at an altitude of about 650 feet above our initial trenches on the crest of Lingkopf-Schraatzmann and Barrenkopf—that is to say, on a front of two kilometers (about a mile and a third). These heights dominate the principal valley of the Ficht as well as the great road from Notre Dame des Tretois."

"We took prisoners several officers and more than 100 men belonging to five different regiments."

#### ROBBED VICTIM DEAD.

SALINAS (Cal.) July 27.—J. H. Kaiser, the former Ulica (N. Y.) cigar maker, who was beaten yesterday while apparently resisting an attempt to rob his store, died at 2 o'clock today without regaining consciousness. His assailant is still at large.

#### HOW WOMEN AVOID OPERATIONS.

By Taking Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"My left side pained me so for several years that I expected to have to undergo an operation, but the first bottle I took of Lydia E. Pinkham's Vegetable Compound relieved me of the pains in my side and I continued its use until I became regular and free from pain. I had asked several doctors if there was anything I could take to help me and they said there was nothing that they knew of. I am thankful for such a good medicine and will always give it the highest praise."

—Mrs. C. H. GRIFFITH, 1568 Conant St., Cleveland, Ohio.

Hanover, Pa.—"I suffered from female trouble and the pains were so bad at times that I could not sit down. The doctor advised a severe operation but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it. What joy and happiness it is to be well once more. I am always ready and willing to speak a good word for the Compound."

—Mrs. ADA WILT, 303 Walnut St., Hanover, Pa.

If there are any complications you are not understanding write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened and answered by a woman and held in strict confidence.

THE CITY  
AND ENVIRONS.

## EVENTS BRIEFLY TOLD.

## Colorado Picnic.

The annual picnic of the Colorado State Society will be held next Saturday at Redondo Beach. There will be a picnic lunch and a short program of speaking.

A musical and literary entertainment will be given in Patriotic Hall, Hall of Records, tomorrow evening by Roosevelt Camp No. 9 and Roosevelt Auxiliary No. 5, U.S.W.V.

Gov. Edward P. Dunne of Illinois and party left last night for San Diego after motoring about the city and suburbs as guests of the Chamber of Commerce and visiting Universal City in the afternoon.

Having severed his connection with the City Prosecutor's office, Attorney W. F. Brown, candidate for the Council at the last election, has taken offices in the H. W. Hellman Building, Leon Figueroa will be his associate.

A luncheon will be held today at the Athletic Club by the Aeronautical Society, affording an opportunity to discuss the plans for establishing and maintaining an Aerial Squadron in Los Angeles as an auxiliary of the United States Army. A number of active business men and army experts will be guests.

Marking the first of a series of concerts to extend through the summer, the Golden State string band will render an interesting program tonight at Echo Park. The feature numbers will be melodies of Dixie land. Similar concerts will be given each Wednesday, Thursday and Friday evenings at Echo Park, with concerts at Westlake Park every Sunday afternoon and evening.

Historical Review for Charity. Plans are under way by Roosevelt Auxiliary, U.S.W.V., for the presentation of a historical review of the Old Testament at the Selig zoo in September. Several hundred people will be required to put on the big production, which will be directed by Mrs. Alice Wadsworth, president of the patriotic organization. The purpose of the affair will be to raise money for the general fund.

Judge Willis Brown of the Salt Lake Juvenile Court was a guest at the Hollenbeck yesterday on his way to San Diego. Judge Brown is president of the recently-formed National League for Wholesome Motion Pictures and is the author of the Congressional bill which has for its object the creation of a Federal Board with powers of approval as opposed to censorship, over motion pictures.

Los Angeles members of the Kappa Alpha Pi National Fraternity will have next Saturday night for the thirtieth annual convention of the organization to be held in San Francisco, August 4-8. Among those in the party will be William Conley, F. Conley, B. Rice, George Morrow, L. Smith, J. Prendergast, L. Norman, J. Oliver, G. Staley, C. Vance, J. Hunsaker, R. Stahler, F. Taylor, Edward Woodward, J. Woodward, C. Taylor, G. Allen, F. Atkinson, C. Vigue and N. Best.

The Sunshine Club, representing the "Outs" since the recent court decision which held that the election of officers two months ago was legal, enjoyed a brilliant social time yesterday afternoon at the Golden-Bosley hall. More than 100 women were present. Singing by Douglas McArthur was a special feature, while card playing was the principal diversion. The tables were in charge of the Misses Frankie Mikell, Ida Allen, Anna Emmons, Agnes Johnson, Naomi and Mae Simkins.

Programs for the celebration of Southern California County Days at the Panama-Pacific International Exposition, tomorrow and the next day, were received yesterday by the Chamber of Commerce. Fruit and souvenirs will be given away both days at the Southern California exhibit in the California Building. There will also be receptions each afternoon and dancing in the evening. Tomorrow night, Maj. Frederick R. Reed, commissioner of special days for the exposition, will be the banquet guest of the Southern California Panama Exposition Commission.

WASHED OFF ROCK. [LOCAL CORRESPONDENCE.] LAGUNA BEACH, July 27.—While fishing on the rocks Sunday C. E. Teach, principal of the grammar school of Orange, was struck by a huge wave and washed off into the deep water. He managed to keep his head above water until he got a foothold on a rock. His hands and knees were badly lacerated.

## —and the Worst Is Yet to Come

Safety First.  
SKY-EYES ARE  
OPENING HERE.REMINGTON MADE MEMBER OF  
NATIONAL BOARD.

Important Luncheon will be Held Today at Which Further Plans for Organizing of First Aeroplane Squadron will be Detailed—Also for Aid State will Give.

The movement for the establishment of the first aeroplane squadron in America here is progressing rapidly. Yesterday Earl Remington, president of the Aeronautical Society of California, received word that he had been appointed a member of the American Society of Aeronautical Engineers, formed at the instance of the committee headed by Thomas A. Edison, which acts as an advisory committee to the United States Navy. This is a signal honor to Mr. Remington and to Los Angeles well.

Today another big step forward will be taken when many prominent citizens interested in the patriotic cause gather at a luncheon at the Los Angeles Athletic Club at noon to discuss ways and means of furthering the movement. At this time of the society, notification is expected from Adj. Gen. Thomas stating just what assistance the officials at Sacramento can render to the Aeronautical Society in its work of enlisting and organizing aeroplane squadrons put under way by the California National Guard.

Those present will tell what has been accomplished so far and what is proposed by the organization. Also the heads of various civic bodies will give their ideas regarding the best way to handle the organization of the aeroplane squadron, the equipment for which the Aeronautical Society of California has already secured. A committee will probably be appointed to take charge of the actual enlisting of the men and the securing of the officers who will be recommended to the Governor for commissions.

Among those who will attend today's luncheon are: Earl Remington, Charles P. O'Brien, A. H. Ross, Gen. M. H. Sherman, Brig. Gen. Robert Wankowicz, all officers of the society; Col. Frederick Persons, U.S.A.; Lieutenant-Commander Lorenzo H. Woodbine, President Mines of the Realty Board, President Baker of the Automobile Club, President Bush of the Merchants and Manufacturers Association, Congressman W. D. Stephens, Maj. A. J. Copp, Bradner W. Lee, A. J. Waters, Col. William G. Schreiber, Frank Garbutt, President Cole of the Chamber of Commerce, Harry S. Andrews, Max Immen, Guy G. Barham, H. W. Brundage, Lyman Farwell, Mayor Sebastian and Sheriff Cline.

FUSS OVER CHILD. Mother Loses It, Father Gets It, and Police are Appealed to Civil Courts Will be Next.

A mother lost her child yesterday, the father got it through deceiving it into an automobile, and then both brought their troubles to the police, but were told to settle their affairs in the civil court. The couple were H. E. and Mrs. Emily Seaton, who had been unable to live together happily since they had separated. The custody of the child had never been arranged by the court.

Both parents are members of prosperous Pennsylvania families. Mrs. Seaton is the daughter of a well-to-do Connelville (Pa.) family, her father having been a stone contractor. Her husband is an automobile salesman. After the domestic troubles, Mrs. Seaton came here one week ago with her four-year-old daughter. Her husband followed her, and yesterday captured the daughter and fled with her in an automobile. The parents will resort to the courts to determine which shall have the custody of the little girl.

BUSINESS BRIEVES.  
(Continued.)

Visitors to Los Angeles should not fail to have pictures taken under the most favorable atmospheric conditions. The Stekel Studio is offering special summer prices. Swiss panels, \$5 per dozen; Panamas, \$7 per dozen; awarded eighteen medals, national and international awards for artistic excellence. Studio, 336 1/2 S. Broadway, A1215, Main 1259.

ADVANCING Southern Metropolis.

THE TIMES

WEDNESDAY MORNING, JULY 28, 1915. EDITORIAL SECTION.

POWDER STORMS COURT AS TRIAL CLIMAX NEARS.

Impassioned Appeals for the Defendants Move Throng to Tears.

Special Assistant Attorney-General Begins Address to the Government and Jury May be Charged Late Afternoon—Remarkable Speeches by Lawler and Robinson Sum up for Defense.

With its tension close to the breaking point and increasing with every hour that brings the climax of the famous case, the trial of the Los Angeles Investment Company's former officers and employees on fraud charges closed its highest point yesterday when the last impassioned appeals for the defendants were made by a strong sense of the approaching dramatic crisis, great throngs of spectators crowded the courtroom and the space beyond the corridors of the Federal building at the doors today to witness the trial.

The witness and friends of the defendants were given seats inside the courtroom and the space beyond the corridors of the Federal building at the doors today to witness the trial. The witness and friends of the defendants were given seats inside the courtroom and the space beyond the corridors of the Federal building at the doors today to witness the trial.

CHINA'S HOPE LIES IN US, SAYS MRS. CUSTER.

Confidence.

CHARMING her listeners with a pleasing rhetoric and well-mannered thought, Mrs. Elizabeth Bacon Custer, widow of the famous Indian fighter, delivered an address last night in the Women's Club house at Hollywood. Despite the fact that Mrs. Custer has retired from the public view following years of arduous work as an authoress and historian, she offered to appear last night to aid in the raising of an endowment fund for the Children's Hospital.

NEW TONG WAR NIPPED IN BUD.

Spectacular Raid Bares Plot for Lottery Grafting.

Killers Brought Here; Many Marked for Death.

Chinatown will not have its tong war. By a spectacular raid on the lottery dens last night it was stopped, and today instead of the huddled old colony about the railroad tracks being a hunting ground for hatchet-men and highlanders brought here from the North for the hell purposes of the feud, it is to be a place without lottery for the first time in its existence.

Noted Woman Aids Children's Hospital.

Mrs. Elizabeth Bacon Custer, Widow of Gen. George A. Custer, the famous Indian fighter. She made a notable address here last evening.

Gov. Arthur Capper

Gov. Arthur Capper, who publishes a newspaper and six magazines besides being the Chief Executive of the Sunflower State. He arrived here with his staff yesterday.

IMPOSSIBLE; UNDESIRABLE.

Kansas Governor Opposed to Nonpartisan Plan.

Tried in His State, Discarded as a Failure.

Tells of Good Results from Prohibitory Law.

Arm-in-arm, Gov. Arthur Capper and W. J. Allen, his political rival at the last election in Kansas, were yesterday, Gov. Capper, on the straight Republican ticket, defeated his "Progressive" friend by more than 50,000 plurality, but that is all past, and the present looks fine for the future of a united party, not only in Kansas, but throughout the United States, according to the visitor.

One of the Magnificent Chickering Pianos used by Fairland Artists.

This Announcement will Interest You—Read it!

Wouldn't you like to possess a beautiful Grand or Upright Chickering Piano that bears the personal indorsement of such eminent artists as Marcella Craft, Kathleen Howard, William Wade Hinshaw and other famous musicians?

**First Long Step Made Toward Flood Control.**  
**County Board of Engineers Submits Exhaustive Plans Calling for Five Years' Work at Cost of Sixteen and a Half Millions—Next Move is to Form District, Vote Bonds, Hire a Boss and Start.**  
**ESTIMATING** the cost of adequate flood control for Los Angeles county at \$16,500,000, the Board of Engineers, Flood Control, submitted collective and individual reports to the Board of Supervisors yesterday, and the body was dissolved, after spending \$100,000 in investigations and drafting of plans.  
The estimate includes an item of \$1,527,000 for work in connection with the harbor. This expenditure will probably be borne by the government, thus reducing the county's estimated outlay to \$14,973,000, or \$5,000,000 in excess of the preliminary estimate made shortly after the board was organized.  
Further reductions in the county's outlay through State aid is expected. In this connection it is recommended that steps be immediately taken looking towards co-operation by the State and Federal governments in the work, which it is estimated will take about five years to complete.  
The collective report of estimates and plans was signed by four of the five members of the board, H. Hawley, chairman; F. H. Olmsted, secretary; Capt. Charles T. Leeds and J. B. Lippincott.  
James W. Reagan, the fifth member, whose report on flood damage and flooded areas furnished the foundation for the superstructure of estimates and plans, refused to sign the report on the grounds, among others, that the plan proposed for the diversion of the waters of the Los Angeles and Honda rivers from the harbor to Alamitos Bay by an intercepting dam at Dominguez Junction is not remedial, is excessively costly and fraught with the danger of creating a settling basin and so defeating the purpose for which constructed.  
**DISSENTING REPORT.**  
Instead of this scheme of diversion Mr. Reagan proposes, in his dissenting report, that a shallow cutting be made through the Clearwater divide, near the County Farm, thus giving a uniform fall of 8.25 feet to the mile to Alamitos Bay, as against a variation in the fall through the dam arrangement, he states, of from eight to four feet to the mile.  
Among the other reasons given by Mr. Reagan for preferring the open-cut plan of handling the difficult problem of protecting the harbor against silt is that the Clearwater route is two miles shorter than the Dominguez route, takes advantage of a natural fall seaward, will cost much less, both in initial investment and for maintenance, and will pass through lands of less fertility than the route via Dominguez.  
All five of the engineers agree that the diversion of flood waters from the harbor is the major desideratum of the whole plan, the major desideratum of the whole plan in the main report that the harbor is the county's greatest asset. In this connection the proposed visits the coming month of both the Rivers and Harbors Committee of the United States House of Representatives and the Board of Engineers for Rivers and Harbors, War Department, is considered as recognition that

## GIVES WARNING TO THE NATION.

Powers Hate Monroe Doctrine, Says Mueller.

And Anglo-Japanese Alliance May Test It.

Deutscher Klub Hears Him on Oriental Subject.

"Will the Anglo-Japanese alliance cause Sir Edward Grey and Count Okuma to join hands and attack the Monroe doctrine?" This was the query put to the fifty guests at a dinner of the Deutscher Klub last evening by Oscar Mueller in his address on "Japan and the Open Door Policy in China."

"While all the powers of the world detest the Monroe doctrine," continued Mr. Mueller, "Great Britain is the only one that really challenges it. Of course, we could defeat Japan in a long and terrible war—that is, if she fights alone. But what if she receives help from her ally across the Atlantic? It is not unreasonable to suppose that the Anglo-Japanese alliance will sooner or later test the Monroe doctrine. We might be called upon by these nations to either abandon the doctrine or fight to maintain it."

"A veiled threat comes from England on the Japanese question. The brilliant George Bernard Shaw says: 'Our diplomacy is centered on what the Germans call sinking-politik—hemming-in game. America being strong, is dangerous to us. Therefore hem her in by Japan, England and France. Crafty, masterly, isn't it? That is the old insular British lion for you at his cunningest and narrowest.' As long as America feels herself caught between the British fleet in the Atlantic and the Japanese fleet in the Pacific, the Anglo-Japanese alliance will make her uneasy."

"This is rather a frank statement from a Britisher." In speaking of the present conflict in Europe Mr. Mueller said in part: "Japan would like to have the United States join her in the present war. The Osaka Mail, a Tokyo newspaper, appeals to America to unsheath the sword. The same sentiments are expressed by another Tokyo paper called the Nichi-Nichi Shinbun. With the opening of the eventful year of 1915 we find Japan ambitious for the accomplishment of the following: Reducing China to the position of a vassal nation with Japan as her protector; European and American trade out of the Orient and dominating the Pacific. Securing a foothold on either the North or South American continent."

"Practically all students of the financial conditions of the Orient agree that Japan could not exist many months if her trade with the United States was discontinued. But while at the present time there seems to be no likelihood of trouble between this country and Japan at a moment's notice the horizon may be darkened. Japan never gives warning. She always strikes when it suits her well-laid plans."

"In the present unparalleled conflict in Europe Japan alone will in any event come out a victor. She has lost some soldiers, discharged a few dollars' worth of ammunition, but has obtained more advantage in a short space of time than any nation has ever gained in a similar period. Japan is indeed indebted to the European nations for this struggle. Japan can well say:

"Let the white nations of Europe fight it out. In the meantime I will be busily engaged capturing the commerce of the Far East and dominating the Pacific Ocean."

**BIG GROCER A-GOING.**

Albert Cohn, Pioneer Grocer, Chooses Central Corner for Fine Display of Foodstuffs.

With the discrimination which has marked his business career since the opening of his store No. 1, in 1887, Albert Cohn has selected as the location for store No. 2 that fine corner at Third and Broadway formerly occupied by the J. W. Robinson Company.

When the doors of this handsomely equipped store were opened and the public was admitted, a crowd gathered there and which has thronged the place ever since, testified to the interest felt by the public in the progress of the plans for such a store in this location. It is estimated that between 50,000 and 60,000 persons passed through the store during the forenoon and afternoon of the opening day. Many of the people who motes displayed proved that the same scale of prices prevailing throughout the other Cohn establishments would be maintained here. This question was one often asked by those peering between the doors and into the windows while preparations for the new, large store were under way.

Floral offerings, many and beautiful, crowded the aisles and counters, testifying to the respect in which the owner of store No. 2 in the chain of grocery houses is held by his associates. Great baskets aglow with brilliant gladioli, sheaves and vases of the season's choicest productions in the way of blossoms from hot-house and garden, made the place a veritable bower. A tall boxwood tree flanking one side of the entrance bore the numbers 1887, while upon the other hand rose a twin tree telling the tale of the long and successful career of the house of Cohn up to the present time. Suspended in the center aisle was a huge horn-of-plenty formed from purple, white and rose-colored asters—a symbol of the abundance to be seen upon all sides.

A pretty incident of the opening was the presentation to Mr. Cohn of a golden key—the key to the front door of the store given by the employees of store No. 1. A sterling silver loving cup was the gift of the employees of store No. 2 to Mr. Cohn.

Hearing baskets, palms and rustic flower boxes, which will remain permanently throughout the store, lend a festive air to the scene which is inviting in the extreme, with the shining rows of plate-glass counters, beneath which all foods and products are housed sanitarily.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is pleasant to take and equally valuable for children and adults.—Advertisement.

"A careful day-after-day reading of The Times' 'liner' section will reveal many money-making opportunities to alert, wide-awake men and women."

## Flood Control.

(Continued from First Page.)

the harbor is a government asset to be safeguarded.

### THE NEXT STEP.

Resolution of the Board of Engineers, Flood Control, means simply that one unit of the great work of "removing the risk" from 215,300 acres of land, valued conservatively at \$16,000,000, has been completed. The second step, under the terms of a bill passed by the last Legislature, at the solicitation of the Los Angeles County Flood Control Association, is to create a flood control district, issue bonds and appoint an engineer to supervise the work. To give the electorate an opportunity to study the subject, before initiatory steps are taken, the Board of Supervisors authorized the printing of the full text of the engineers' reports for general circulation.

Property losses of \$7,000,000 through the floods of 1913-14 dictated the formation of the board of engineers. As for the desirability of flood control the reasons are succinctly set forth in the engineers' report in the following words:

"At a meeting looking to relief from flood damage recently held in Toluca, Kautz was told that the flood damage in the State of Kansas during the present year, 1914, amounted to \$11,000,000. The State of Kansas has an area of 12,151 square miles. Los Angeles county has 47 square miles. If the relative economic interests of the two states are compared, the amount of damage and property loss to the area, then Los Angeles has an incentive about twenty times as great as that of Kansas to secure flood control."

In general, the plan of both the majority and minority of the Board of Engineers for adequate flood control contemplates, in the words of Mr. Reagan, "conservation, a reclamation, reforestation, spreading of the waters of some streams, diversions of others, and channel rectification and improvements."

The majority also favors a recommendation of Mr. O'Connell, a rather extensive system of impounding reservoirs in the mountains, installing an extensive system of canals, 12,615 miles. This expenditure, Mr. Reagan said on the ground that the siting up of the basins behind the dams will eventually cause a raising of the level of the streams, thus negating the purpose of which the dams are built and meaning increased liability of flood-flow from canyons.

**FIELD TESTS PLANNED.** In connection with this plan of the work, the Board of Engineers recommended the appropriation of \$400,000 for the purpose of initiating comprehensive field tests of the extent of flood-control possible by reclamation and impounding.

The blanket estimates include items of \$12,824,400 for structures and \$13,644,500 for rights-of-way. These last the engineers recommend should be acquired at once as land values are on the increase. Proposed expenditures are divided into four divisions: Mountain district, \$12,700 for structures and \$670,200 for rights of way; San Fernando district, \$1,615,500 for structures and \$460,100 for rights of way; San Gabriel district, \$4,381,000 for structures and \$123,000 for rights of way; and Coastal district, \$5,635,200 for structures and \$1,423,400 for rights of way.

Attacking the flood problems at their area in the mountains is recommended for that division, with expenditures of \$1,410,000 for impounding dams and contour furrows, \$114,700 for rock-dams in Pacifico, Creek, San Gabriel Canyon, Baton Creek, and other places; \$150,000 for building a masonry dam across the Arroyo Seco at Devil's Gate, near the Pasadena dam; \$1,697,800 to spread the waters of Pacifico Creek and the San Gabriel River, to facilitate percolation. In connection with the Devil's Gate dam, the public ownership of a strip of land 300 feet in width on either side of the Arroyo Seco from the dam to junction with the Los Angeles River is strongly recommended. This would give control of both channel and access thereto for maintenance and afford a foundation for a fine park.

### IN THE SAN FERNANDO.

Spreading and assisting waters to percolate under-ground is proposed for the San Fernando Valley, with conveyance of the flood waters of the Tejonas through their western channel to the Los Angeles River, and those of the Pacoima in a southerly course from its canyon, through the county rock quarry at Pacoima to a junction with the main channel of the Tejonas. In addition it is proposed to provide a channel for the conveyance of the flood waters from the extreme northeast corner of the valley through the Los Angeles River, and also from the western portion of the valley to the central depression of the valley south of Brea-mouth. This will include a channel from Chatsworth Park and out from Zelzah, to cost \$879,200 for structures and \$80,000 for rights of way, including work at San Fernando and Wilson.

"A rapid increase in the population of the valley is expected," says the board's report. "The time is opportune for acquiring rights of way." Acquisition of 2800 acres on the San Gabriel debris cone for spreading purposes is proposed to initiate other work in the district of the same name. This includes a channel 600 feet wide for the San Gabriel River, with boulder-faced levees, from the mouth of its canyon to Lexington Wash. A rubble-weir dam at the junction of the two streams is proposed to pass 12,000 second feet of water from the San Gabriel River into the wash and so into the Rio Honda, whose channel it is planned to widen to 250 feet. Below the Whittier Narrows, the Rio Honda is to be straightened to a junction with the Los Angeles River in the vicinity of the County Farm, while a return of the second river to the channel that it occupied, previous to 1889, from the city limits to Fontana is recommended. It is also proposed to divert the San Gabriel River from the crossing of the Santa Ana branch of the Pacific Electric through its 1883 channel to a junction with the diverted Los Angeles River east of Bouton Lake.

Hundreds of other recommendations are made, affecting all parts of the county and calculated to make all land area from the mountains to the sea immune from flood.

**CLUB GETS DAMAGES.** A decision of interest in connection with flood control was handed down yesterday by Judge Works, who has allowed the San Gabriel Country Club an \$8000 judgment against the duty for damage to its golf links.

Storm waters in the spring of 1914 cut through the golf course, widening an arroyo from twenty 300 feet, and making several holes much more difficult for golfers to negotiate. The par of the course was raised by the sand and recently the whole course has been rearranged.

The country club sued for \$75,000 damages. Deputies from the county counsel's office argued against issuing an order compelling the county to divert the flood waters around the golf course, and Judge Works refused to issue it.

## CHINESE PUZZLE.

Oriental Women in Grand Larceny Case in the Justice Court. Justice Summerfield will have to work out a Chinese puzzle today. Fond Shee (meaning Mrs. Fond) appeared against Mrs. W. C. Sheen, both Chinese, in the Justice Court yesterday, charging Mrs. Sheen with grand larceny of \$420, and jewelry worth \$200. She charges the money was taken from a safety deposit box. Mrs. Shee Leong says that Mrs. Sheen called her in to discuss the disappearance of the money and jewelry, and that Mrs. Sheen admitted she had taken both and pawned the jewelry in a Main-street hock shop.

Mrs. Shee was said to have admitted that she took the valuables and promised to return them, but she fled and returned to the Justice Court. Shee grew tired of the promises and when Mrs. Sheen went to Baker's field without returning, Fond Shee had her arrested and brought back.

All of the evidence was not in when Justice Summerfield locked up and went home last night, so he will hear the remainder of it today.

## ELECTRIC SHOCK FATAL.

Enough Juice Runs Through Man's Body to Illuminate Skyscraper Office Building.

Enough electricity to illuminate a skyscraper office building passed through the body of Edward Schaefer, 19 years old, No. 1701 Arlington avenue, yesterday. Twelve hours later he died in the Crocker-Hospital.

While painting near the metal switches in a powerhouse in the Catalina Canyon, the wet brush came in contact with the switch carrying about 900 volts of electricity. That amount is sufficient to illuminate an entire skyscraper, even every globe in the structure ablaze.

The shock carried Schaefer off his feet, and he fell twenty-five feet to the floor. It was five hours after the accident before he could be brought across country into the hospital for medical treatment.

He was provided with a pulmotor, applied it on the long trip to the hospital in a frantic effort to save their friend.

most wonderful display of hardware and tools. The mechanical devices worked out with them are very ingenious.

President Holmes Supply Co. Los Angeles, Cal.

Hardware Merchants—

by the score have been prompted to just such voluntary expressions of praise as the above.

To stand before the Keen Kutter exhibit in the Manufacturers' Palace at the Panama Exposition is to view a triumph of hardware mechanism.

It combines the scintillating movement of thousands of pieces of hardware with a beauty and strength of arrangement that is truly amazing.

Every merchant interested in hardware is cordially invited to visit this display, representing the world's greatest trade marked line of tools and cutlery—Keen Kutter.

## Impossible; Undesirable.

(Continued from First Page.)

should do everything possible toward bringing this about. "We must realize, however, under present conditions that there are emergencies we cannot ignore, and a greater army and navy will not be amiss until after settlement of this world-wide struggle."

Another national problem, in the solution of which Gov. Capper is interested, is that of flood control. He called a conference of engineers, State officials and others interested in controlling the waters of the Mississippi, a short time prior to coming here, for the purpose of devising best methods for co-operation with the Federal government in harnessing the floods.

"These, during the past two months, in my State, cost in the neighborhood of \$10,000,000, a loss that could easily be overcome if proper remedies were applied," he said.

**AS TO PROHIBITION.** One of his hobbies is prohibition. It was only a few days after leaving for the West that he secured the passage of a new civil service ruling which bars all men from employment in State departments who use liquor. "This wave against liquor is not created from moral reform reasons, but because big business has realized that there can be no combination of efficiency and liquor consumption," he said.

"With this prohibition is a settled policy, no thoroughly enforced the consumption, although not entirely eradicated, has been reduced 75 per cent. Our Republican House and Democratic State Senate were unanimous on the one question, that of enforcing national prohibition."

Gov. Capper is a newspaper man. He started in as an errand boy and later became a typesetter on the paper he now owns, the Daily Capital of Topeka. This is the only morning newspaper in the State of Kansas having a Monday morning edition.

Aside from his daily he publishes a magazine of these is Capper's Weekly, which has a wide circulation through the Middle West, as has Poultry Culture. His other magazines are the Oklahoma Farmer, the

Kansas Farmer's Mail and Breeze, the Missouri Ruralist and the Nebraska Farm Journal. Until his nomination on the Republican ticket for the Governorship three years ago, of which time because of a split in the party he was defeated by the Democratic candidate with twenty-nine votes against him, Gov. Capper never took an active part in political affairs save impersonally through the columns of his publications.

He was at the Hotel Maryland yesterday, but will be at the Alexandria during the remainder of the week, remaining until Sunday. On Friday evening he will be chief speaker at a banquet and on Saturday will speak at the annual picnic of the Kansas State Society of Southern California.

TWO ERRORS BY  
PHILLIES LOSE.

BY A. F. NIGHT WIRE.

CINCINNATI, July 27.—Philadelphia gave the last game of the present series to Cincinnati today, 4 to 2. In the ninth inning, when the game was a tie, Clarke drove to Becker, who dropped the ball, Clarke taking second. Leach then grounded to Bancroft, who let the ball get away from him, Clarke scoring on the play. Griffith drove out a home run with a man on base in the fourth inning. Nishoff was put out of the game in the same inning for disputing with Umpire Eason. Score:

AUTO RACES  
FOR BEACH?

SANTA MONICA, July 27.—

When the Chamber of Commerce meets Friday night it will be waited upon by a committee of automobile race fans and motor bike enthusiasts in an effort to obtain the indorsement of that organization for a race meet to be staged on the streets of the southern end of the city Labor Day.

Citizens have appointed committees to interview the civic body and to learn whether the City Council will permit the use of the streets for the purpose named. One of the events would be a hill-climbing contest, which would be staged on Marine-street hill.

Events for stripped and stock cars and two motorcycle contests are on the tentative programme, which would contain ten and twenty-five-mile events for automobiles of the several classes.

TWO CAPTAINS  
LEAVE HUNS.

POMONA LOSES TWO VETERAN

ATHLETES.

George Green, Star Quarter-back, will enter Stanford while McCulloch, Husky Tackle and Leader of the Football Squad, Contemplates Registration at State University.

SANTA MONICA, July 27.—

CLAREMONT, July 27.—When Pomona College opens in September, it seems likely that two captains of major sport teams will be among the missing. These two men are Frank McCulloch, leader of the football team for 1915, and George Green, captain-elect of the track squad.

McCulloch is considering very seriously entering California next year, and will probably carry out this plan unless he has a very sudden change of heart. He is anxious to take up a professional course which is not offered at Pomona, and for this reason may enter the northern school next fall.

MAY CHANGE.

Strong pressure is being brought to bear upon him by his many Pomona friends, however, and it is barely possible that he will change his plans, and enter the first call for candidates for the football team next September, along with the rest of last year's squad.

George Green will attend Stanford next year, according to his present plans. After proving a star in his freshman year, Green failed to run as strongly last year as the year before, and while he proved a consistent winner, he never approached the form which he exhibited his first year.

NEEDS A REST.

He feels that a year's effort will do him good, inasmuch as he has competed for the last six years without any vacation, and he can only get this vacation by changing to another school where he will be ineligible for a year. Consequently, he has decided to attend school in the north.

The loss of these two men will be keenly felt by the Sagehens, and may prove a serious blow to their championship aspirations for the coming year.

TOUCHARD PLEADS  
GUILTY TO THEFT.

TENNIS PLAYER TAKES GOLF

BALLS FROM STORE IN

WHICH HE WORKS.

NEW YORK, July 27.—Gustave F. Touchard, 25 years old, formerly of California, former indoor tennis champion, and for several years a keen contender in outdoor national tournaments, pleaded guilty today to the larceny of golf balls valued at \$149 from Abercrombie and Fitch, dealers in sporting goods, where he was employed. Judge Rosinsky, of General Sessions, before whom he made his plea, remanded him for sentence until Friday.

George Gordon Battle, counsel for Touchard, in asking for mercy for his client, told the court that early in the year Touchard's wife died in childbirth and that the defendant was left with the baby. Doctor and medicine bills, he said, had piled up, and his client's resources were at an end. Then came temptation and he fell.

DE PALMA OUT TO  
BREAK ROAD MARK.

ELGIN RACE TO BE EXCITING

AND DANGEROUS, SAYS

FAMOUS DRIVER.

CHICAGO BUREAU OF THE

TIMES, July 27.—The world's automobile road record is doomed, so be shattered if one may accept the opinion of Ralph De Palma.

"The Kane county course, over which the Elgin race will be run August 26 and 27, is altogether too fast," says De Palma. "There seems to have been too much improvement. This makes the course dangerous. However, the Elgin race should be the most exciting and the most successful in the history of the event."

De Palma will handle the Elgin 500-mile race and will have as members of his Stutz racing family such noted racing men as Gil Anderson and Earl Cooper.

MILAN STEALS  
FOR LONE RUN.

Senator Dashes Home from

Third Base.

WASHINGTON, July 27.—

WASHINGTON, July 27.—Milan stole home in the first inning with the only run of today's game, winning for Washington a pitching duel in which Gallia allowed Cleveland only one hit while the locals made only two on Hagerman. The result ended the longest winning streak Cleveland has had since 1913. Turner, who singled in the eighth, and Southworth, who walked in the ninth, were the only visitors who reached first base. After the second Hagerman did not allow a hit. The score:

FOUL CLAIM  
IS DENIED.

Kid Williams, who was wel-

lterweight champion of the world but did not know it until he lost the title, denies strenuously that Clark fouled Carter in the fourteenth round at Tia Juana. The reason for his interest in the foul is that he is Clark's manager.

He has a scrap of signed paper to prove that the blow was clean and above the belt. It reads as follows:

"Carter was not fouled by Clark in the fourteenth round as claimed. Examination revealed the imprint of the blow just below the navel. Carter was ordered to resume fighting. Witness.

CHARLES K. JACKSON.  
Dr. J. R. HICKS.  
BILLY McMAHON, referee."

**TOM BUNDY PUNCTURES HOPES OF TWO PLAYERS.**

*Freeze is First Victim and Hardman Second—Neither Trouble Tom Much—Mrs. Bundy also Wins with Grace and Ease—Stranger from Arizona is Among Those Reported Lost and Missing.*

**FREEZE** was the feature of the Southern California tennis tournament yesterday. The Hotel Virginia courts withstood the terrific strain of two dozen matches. Most of these affairs were neatly wound up in two sets. Only a few real battles started the enthusiastic audience. It was all first class tennis, however, and the thirtieth annual tournament promises to be the best ever.

**RAH FOR TOM.**  
Tom Bundy indulged in a pair of contests during the day. He started out by defeating Freeze 6-3, 6-4, and worked up to a climax when he walloped Hardman 6-0, 6-0. The first match was the battle of the day, and it was close, right up to the last point.

**LONG WINDED.**  
Earl Shook and Paul Rebell covered themselves with sweat and glory. They got tangled up in a 12-10 struggle which came very near knocking them out of their lunch. This threatened to upset Rebell, but he completely lost his wits and hastily fell flat to the tune of 6-1.

**STRANGER DOWNED.**  
The hero of Texas, Arizona, etc., Mr. Kenneth Brown, also succumbed yesterday. This representative was rudely led out of the tournament by Frank Donley. The match was a speedy one and three sets had to be played to decide the winner. Donley displayed a serve which was somewhat of a surprise to a good many of the natives. His drives were equally useful and when it came to getting over the ground, he was there.

**CLASS HERE.**  
Miss Elizabeth Sherk, a rather new entry into the tennis limelight, certainly distinguished herself. This young lady has several little tricks all her own. In the first place she holds four balls when serving. There is not another man, woman or child in the tournament who does this and

## Public Service: City Hall, Courts.

At the City Hall.  
WORK ON BUDGET  
NEARLY ENDED.COUNCIL COMMITTEE EXPECTS  
TO REPORT SOON.

Additional cuts are made in Appropriations for Playgrounds and Library Board While Fire Department Reductions are Delayed Another Day.

Assessment roll figures will be available for the Budget Committee of the Council Friday and the new budget will be ready for presentation to the Council early next week if the committee holds to its schedule. At present the committee is working on the theory that the city's estimated revenue will be within a few thousand dollars of the amount collected last year.

Yesterday's work on the budget included a cut of about \$60,000 in the appropriation for the library board, and in making this reduction from the requisitions of the board the Budget Committee announced that the library fund will receive only the mills provided by law and the 10 percent of the Carnegie contributions agreed upon. The playgrounds appropriations will be trimmed about \$28,000 more, and the committee asked the playgrounds department to do its own trimming so long as the cut is made to that figure.

The question of whether the police pension fund must remain as a trust fund or may be diverted to general use was referred to the City Attorney by the Budget Committee. No further action was taken on the fire department budget and the figures as trimmed Monday night will stand until a detailed report on the salary requirements of the two-platoon ordinance is received from the department.

The committee quit work last night after completing preliminary consideration of the entire budget, with a difference of about \$240,000 between estimated receipts and appropriations. This amount must be found by trimming still further along the line.

## FOR VIADUCT HEARING.

## INVITATIONS ARE SENT.

Invitations were mailed yesterday to all of the prominent business and civic organizations in the city asking them to send representatives to the public hearing on the viaducts and industrial district plans, to be held in the Council chamber August 2 at 2 p.m. These invitations, signed by Chairman Topham and Secretary Payne of the General Viaducts Committee, state that the hearing will be for the purpose of taking testimony relative to the details of the report and plans of the Board of Public Utilities relative to the proposed elimination. The testimony to be taken will also include ways and means for carrying out the plan which have already been approved tentatively by the City Council and the County Supervisors.

In addition to representatives of the various civic and business organizations, representatives of the railroads also are asked to attend the meeting next week. The Public Utilities Board reported to the Council that the Southern California Edison Company has agreed to extend its mains to connect with the new freestone at Wilmington. An order was issued to the Pacific Electric providing that all inbound cars south of Sanborn Junction must stop to take on passengers when there are vacant seats.

PICKS WOMAN FOR PLACE  
ON PLAYGROUNDS BOARD.

F. R. Silverwood resigned as a member of the Playgrounds Commission yesterday and Mayor Sebastian will fill the place by the appointment of a prominent woman—provided she will accept the place. Mr. Silverwood, in his letter of resignation transmitted to the Mayor yesterday, said he expects to leave Los Angeles soon on an extended visit and his absence, and business demands upon his time, make it advisable to resign. The resignation was accepted with regret. Mayor Sebastian said last night that the appointment will be offered to a woman who is widely recognized as a leader in social betterment work.

## CHANGES ORDERED.

## NEW WIRING ORDINANCE.

The Public Safety Committee of the Council will urge the Budget Committee to start work on the new fire and police alarm system and also to provide for a bond issue to cover the cost that work on the system may be started soon. Chairman Brain of the committee says he believes that the taxpayers will favor a small bond issue for this purpose when its need is understood. The Public Safety Committee referred the new electric wiring ordinance back to the City Attorney for changes in accordance with recommendations of the building department. As the ordinance was originally approved it excepted from its provisions the class of buildings which most need protection and the Fire Commission urges that it be amended to require safe wiring in small bungalows constructed of inflammable materials.

## REVOLUTIONARY.

## BATH PARLORS INVESTIGATED.

Mayor Sebastian and the Police Commission started a movement yesterday whereby they propose to "revolutionize" the baths and massage business of Los Angeles which, according to reports to the commission, needs more stringent regulation. City Prosecutor Warren Williams was instructed to draft a more stringent ordinance, which the Council will be asked to pass and the commission instructed Chief of Police Sweeney to prepare a report on the places now licensed.

## UNSATISFACTORY CONDITIONS IN THE

## Licensing of these places arise from the

fact that a few years ago applicants for licenses were not required to stipulate that men and women patrons shall be treated by operators of the same and some of the older establishments have not lived up to new requirements.

## Subway to be Built.

Provision for a subway under the Santa Fe tracks at the Avenue Forty-six entrance to Sycamore Grove was made by the Budget Committee yesterday on recommendation of the Public Utilities Committee of the Council. The subway will cost about \$100,000 and of this amount the city has already spent \$75,000 for land and the Santa Fe and the Los Angeles Railway have each contributed \$10,000, leaving a cash appropriation of \$15,000 necessary. The subway, in the opinion of the Council, will relieve one of the most dangerous crossings in the city where large crowds are now obliged to walk from the street car

## terminus across the railroad to the

## park.

## Grade Separation.

On recommendation of the Public Works Committee yesterday the Council instructed the Public Utilities Board to prepare and submit plans for grade separation at Mission road, in the Rose Hill district, where the Pacific Electric crossing is regarded as a great menace to safety. According to Councilman Topham, who visited the place a few days ago, the cost of separating grades by depressing the road and elevating the tracks will not be heavy. Mr. Topham said he believes the Pacific Electric should pay two-thirds of the cost of the change.

## Difference of Opinion.

Mayor Sebastian's suggestion that the managers of amusement places be requested to play "The Star Spangled Banner" at the close of each performance was received by the Council yesterday and referred to the Public Welfare Committee. "Tomorrow," said Councilman Wheeler.

## At the Courthouse.

AGED MAN IN  
ODD CONTEST.MARRIED COMMON-LAW WIFE  
AFTER FIFTY YEARS.

She was Hundred and Three Years Old When—Ceremony Performed so He Would Share in Her Estate. Settlement Papers, He Says, Were "Put Over" on Him.

Pasquino Leon, 93 years old, who lived with a woman half a century before she reached the age of 103 years, and then married her, yesterday filed a petition in the Probate Court to reopen the contest over his wife's estate, valued at \$100,000, mostly in property just north of the Broadway tunnel.

Through his attorney, M. O. Graves, the nonagenarian claimed that he was fooled by an attorney into signing a paper which he supposed to be a settlement out of court of his original claim. He believed he was receiving half of the estate and signed a stipulation to a dismissal of the action.

In his petition, filed yesterday, Leon asks that the judgment entered in the prior case be set aside. He says he is penniless. He confessed that his marriage to Mrs. Marcellina E. Leon, his common-law wife, was entered into so that he could get his share of the estate, and she deeded her property to him.

Relative had her declared incompetent and her will was set aside. The Citizens' Trust and Savings Bank later sued to quiet title to the property on which there was said to be a mortgage of \$1100.

## DIVORCE SUIT.

## ERKENBRECHER AT IT.

Another "friendly" divorce suit was filed yesterday by Mrs. Anna Flora Erkenbrecher against her husband, Byron Erkenbrecher, a member of the Public Service Commission, and a wealthy realty broker. Attorney Gurney Newlin, filed the complaint, the contents of which are held secret.

Not more than a month ago Judge

## Wood denied the application of Mrs.

## Erkenbrecher for divorce, declaring

at the end of an unusual trial that the circumstances attending their separation in January had not been shown sufficiently to warrant him in granting a decree.

## HERE AND THERE.

## IN LEGAL PROCEEDINGS.

**BLAMES OWNER.** Charging that an apartment hotel proprietor was responsible for her being overcome by gas fumes, Marie G. Gleason yesterday brought suit for \$15,000 in the Superior Court against Minnie Tagliaterra, who operates an apartment house at No. 327 South Hope street. The plaintiff says that she was renting an apartment at the place, went into a bath room and was overcome by fumes. She said that as a result of it she fell and broke two bones in her ankle.

## SUIT STARTS.

## IN THE KEATING CASE.

After the issuance of a divorce decree four years ago, arguments on the motion for a new trial in the divorce case of Mrs. Hazel M. Keating against Edward Keating, were heard and the case submitted before Judge Wood yesterday. Keating is the son of Andrew J. Keating, late "nitrator king."

## NOW WOULD PART.

After forty years of married life, John C. Stedman, a real estate man, and his wife, Mrs. Lillie Stedman, want to become legally separated, but Judge Monroe declined to honor them yesterday. Last January they separated and Mrs. Stedman asked for a divorce. It was denied. Yesterday Mr. Stedman went into court and asserted that two days after the denial of a decree in his wife's case in January he went to his home on West Seventh street. His wife would go and most of the furniture also.

"We occupied the same house, only different parts," said Mr. Stedman. "She cooked her own breakfasts and when I tried to cook mine she threw the coffee pot out of the window. She

NOT SORRY IT'S  
THE "PEN" AGAIN.EX-CONVICT, WHOSE COMMON-  
LAW WIFE QUITS HIM, IS  
CAUGHT STEALING.

Arthur C. Vallancour is going back to prison, and he doesn't care much. He was found yesterday coming out of a house at No. 2847 West Eighth street. When arrested by Motorcycle Policemen Niece, his pockets were loaded with loot, and his confession of guilt was immediate.

But he is rather indifferent about going back to prison, because he thinks his wife was, as he calls her, "a quitter." They had been together a long time, never married, he told the police, but had lived with all the loyalty of husband and wife, and had raised a family of four children. Four years ago, Vallancour brought the family here, and as he was unable to find work, he had difficulty in getting work, although he was somewhat of a painter. Times in his life from a downtown corner

and the demand for food came. He couldn't get work and he couldn't get food. So he went out and stole, and was caught doing so. Five years in the penitentiary was the sentence. When he went away to do his "time" in prison, his wife was insoluble. She said she would work for the children and be waiting for him when he was discharged, and she begged him to be good while in prison that he might profit by credit marks. His conduct there was exemplary, and after two years he was given a parole.

When he walked out his wife wasn't there, and he hadn't heard from her for several months. He wrote and she didn't answer. He came to Los Angeles, and found his wife, he says, had exercised the odd caution of having herself divorced from him by formal action of the courts, although, he declares, the marriage ceremony was never performed, and no legal record of their marriage exists.

He called on her, and she refused to be interviewed. She told him to get away, and leave her and the children alone, and she was married to another, with whom, she said, she was happy. Also respectable.

That was three days ago that he found her and got the ultimatum. Yesterday, he said, he had no money and couldn't get a job. He decided he wanted to leave the country, but to get the money he decided to steal. So he went to the residence which he found deserted for the afternoon, and he pilfered all the jewelry chests in the house. His loot wasn't great, worth about \$15 to a "fence," he thought, but it might help him on his way to South America.

But the police stopped him, and he will return to prison to serve the end of his sentence.

"Well," he comments, "the boys up there in the air are pretty square, anyway," and then he smiles a wistful, disheartened smile.

No matter how severe an attack of diarrhea may be, Chamberlain's Colic, Cholera and Diarrhoea Remedy never fails to give relief.—[Advt.]

"How Delightful to Shop at Hamburger's! Why, it's the Coolest Store in Los Angeles —I Do Believe."

—The remark of a customer that prompts this Hamburger message—

## A Cool Store

—The air you breathe is taken in through a water curtain, high up on the roof, and the temperature is cooled by tons of ice. The air is changed every thirty minutes throughout the entire store—a system of ventilation that keeps the temperature of the Hamburger store many degrees below that of the street—"the coolest store in town."

There's Always a Cool Breeze  
On the Hamburger Roof Garden

—Neath the palms and shady pergolas the comfort of spacious rustic chairs and rockers, cool breezes from over the ocean, that's a world picture of the Hamburger Roof Garden.

## Other Warm Weather Comforts

—Cool, refreshing, pure drinking water with sanitary fountains—a Hamburger service.

—Wide, spacious aisles and high ceilings make summer shopping a pleasure at Hamburger's.

Tourists—Hamburger's Information Bureau is at your service from 9 a.m. till 5:30 p.m.

—Telegraph and Express Offices—Main Floor.

Advance Styles in Fall  
Footwear

## —For Women

—The latest styles reach Hamburger's first—extreme novelties come direct from their designers to Hamburger's as soon as they are out of the factory—that's why you always find the newest footwear at The Great White Store first.

—These models for instance—one is of fine, soft kid in "midnight blue" with black patent leather trimmings, and there's one in battleship gray of the same design. The other is of white buckskin, real buckskin. So new, so very chic, and yet they are only \$4.00—at Hamburger's—a conservative price.

## Women's White Canvas Pumps } \$250

—This pretty 2-strap model reached us yesterday. It is very graceful in design, cool looking and comfortable—a delightful pump for all-summer wear.

(Hamburger's—Main Floor—Today.)

## LOCAL FANCY CANTALOUPE

## Special Today, 20c Dozen

—Delivered only with other groceries. (Hamburger's Grocery Dept.—Fourth Floor—Today.)

## Women's Tub Dresses

## That Were \$12.50 to \$15.00

—In the great clearaway of dresses which have been in the store their allotted time, none are prettier than these. Only one or two of a style—the variety is delightful. Of exquisite embroidered crepes, braided linens, gabledines and novelty voiles in women's and misses' sizes—\$8.75.

\$25 to \$35 Summer Dresses } \$14.50

—Only a few of these remain. They are of the type one wears to an afternoon reception, a semi-formal dance, the matinee, or to a downtown dinner. Very, very pretty—and now reprieved for a quick clearaway at \$14.50.

(Hamburger's—Second Floor—Today.)

## The Sale 25c Beauty Silks

## Continues

—Silk-mixtures—just about the prettiest designed this season—Hamburger's that you'll save on them at 15c a yard today.

## 65c Silk Mixed) 29c 1500 Yards of White Voiles

—Only a limited quantity of these pretty tussahs being left, the price-cut on them is indeed drastic. Two hours' selling should clear them away—and it will—\$29 a yard.

(Hamburger's—Main Floor—Today.)
